Penn vs. UIUC: Alumni Outcomes

Who actually wins long-term?

mr_obasi82 1w
Illinois is literally ranked 9th best public university in America and has one of the highest starting pay statistics for alumni.

As an Alum of both Illinois (ChemE PhD) and Penn (Wharton MBA) I find this in very poor taste. I would hire an Illini before a Penn grad any day.

After losing by FORTY POI
the UPenn student section
would be funny to chant, "
That's okay. You're gonna
today."

How loser-y... but what'd y
from Trump's alma mater?

They might want to do a lit
search and read up on Illin
alumni 💙🧡

marie_suzanne__ 1w
This all started with Billy F
when Penn (15) lost to Tex
and said this: "Do
Penn players. In 1

National Data Sets:

01: US Department of Education: College Scoreboard: https://collegescorecard.ed.gov/compare/?toggle=institutions

Allows you to reference how all universities and colleges in the United States compare average annual cost, graduation rate, median earnings, diversity levels, typical earnings post grad, and median total debt after graduation

02: Anonymous Tax Records collected by Equality of Opportunity: https://www.nytimes.com/interactive/projects/college-mobility/city-college-of-new-york

Focuses more on the mobility index: what income levels the students originate from, and what salary they make afterwards post graduation

Data Analysis Methods for National Data:

Creating a success index that can be measured:

1) Median salary (earnings after graduation)
2) Median debt after graduation
3) Overall mobility index
4) Median student income at 34

Note:
Both website's provide individual information that is searchable, not datasets. May have to extract this data manually, along with individual analysis.

Penn and UIUC Career Outcomes Data

01: Outcome Reports for Undergraduate and Graduate across Schools https://careerservices.upenn.edu/post-graduate-outcomes/

02: https://careerservices.upenn.edu/post-graduate-outcomes/undergrad-reports-by-school/ (School Outcomes)

03 https://careerservices.upenn.edu/post-graduate-outcomes/undergraduate-industry-reports/ (Industry Outcomes)

04 https://illinisuccess.illinois.edu/24-25-annual-report (2024-2025 Report UIUC)

05 https://ecs.grainger.illinois.edu/fac-staff-resources/SalaryandOutcomesData (Engineering Specific)

Data Analysis Methods for Career Data:
For both school's career outcomes:

1. Compare median salary across schools
2. Specific Industry Outcomes
3. Top employers
4. Concentrations in industries (finance, cs, etc.)

Note:
Both school's provide reports, not datasets. May have to extract this data manually, along with individual analysis from sources like LinkedIn.
